

Ponsanooth Hall Health and Safety Policy - Reviewed December 2023

The Management Company operates a Health & Safety Policy which seeks to provide a healthy and safe environment for all hall bookings and events.

All statutory requirements for public health and safety are reviewed and implemented. Regular Risk Assessments, which address the normal use of the hall, are carried out and wherever practical potential hazards are reduced and if possible eliminated. Guidance is regularly sought from qualified professionals.

Written records of all Health & Safety issues are kept and available for inspection on request. An 'Accident Report Form' is available from the office.

User Groups play a key role in maintaining this healthy and safe environment by operating in a way that does not lower our H&S standards. The policy statements below seek to support User Groups in maintaining this standard and the User nominated responsible person is required to sign an acknowledgement of their responsibility to this policy - as part of their hall booking contract. They or their representative is then responsible for the health & safety of the group during their use of the hall facility.

Any point can be queried with the Ponsanooth Hall's Health & Safety Representative whose word is final.

1. Calls to '999' emergency services will be made on a mobile phone from a person present.
2. The entire building is non-smoking at all times. No activities are allowed which involve danger to the public. No obvious fire hazards are allowed on the premises. No unauthorised heating appliances are to be used. No hazardous substances (as regulated by COSHH) are to be used or stored in the hall. No highly flammable substances shall be brought into or used in any part of the premises. No internal decorations of a combustible nature (e.g. polystyrene, cotton etc) shall be undertaken or erected without the permission of the H&S Representative.
3. The Hirer must report all accidents involving injury to the public to a member of the Ponsanooth Hall Management Co. as soon as possible and complete the 'Accident Report Book'. Any failure of equipment belonging to the Hall or brought in by the Hirer must also be reported as soon as possible. The Ponsanooth Hall Health and Safety Representative will report any incidents in accordance with the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995 (RIDDOR).

Regarding Safe Escape in the event of a Fire

4. Users should acquaint themselves with all exits (normal & emergency) and these must be kept clear (internal & external) at all times such as not to impede emergency evacuation. All fire doors are marked as such and under no circumstances are to be wedged open. For any major events

involving numbers exceeding 50, the hirer must check that all exits are unobstructed – this includes checking that emergency exits are unlocked and functional as intended. Fire drills are not regularly practised.

5. In the event of an outbreak of fire, however slight, the building must be evacuated immediately – fire extinguishers are provided at all exits to assist in clearing a path for emergency exit. The muster point is in the lay-by at the entrance to the Hall. Wherever feasible and safe to do so, doors and windows should be closed to reduce the spread of the fire. The Fire Service should then be called on 999.

Regarding the use of the Kitchen

6. Any hirer intending to provide catering (beyond cold or hot drinks and cold proprietary packaged biscuits/cakes) must ensure there is a person responsible for food preparation that currently holds a food hygiene certificate. If you require any guidance on this matter contact a member of the Ponsanooth Hall Management Co..

7. The cooker must be switched off when not in use. Care must be taken when preparing and using boiling water and when handling hot utensils or appliances. The oven/hob should be supervised at all times when in use. It remains hot well after being turned off.

8. Users must remove all food at the end of their booking. Outside rubbish bins are provided for disposal of waste food. Bags of food waste must not be left unless securely within the external rubbish bins provided. Excessive rubbish created such as by parties should be removed by the hirer.

9. A hand-wash facility is provided near the kitchen door. The kitchen and utensils should be left in a hygienic state – usable by the next booking.

Cleaning facilities are provided – generally stored in the staff toilet. If the kitchen has been left in an unhygienic state by a previous booking it must be reported to a representative of the Ponsanooth Hall Management Co.. The Hall does not arrange cleaning between each booking and the Management Committee cannot be held responsible for the condition of the kitchen from the previous booking.

Further general points

10. No safety equipment must be tampered with. If any faults are observed they must be reported as soon as practical to the H&S Representative.

11. In the event of a power failure – an emergency lighting supply is automatically triggered to illuminate exit routes.

12. A First Aid box is kept in the kitchen by the hand wash sink. Users are asked to advise a member of the company if any items have been used so they can be replaced.

13. A qualified First Aider is not provided by the hall facility. Users are advised to consider and resolve their own First Aid requirements.

14. Children are to be supervised at all times. The hall has many features such as a kitchen; stage

and storage cupboards which while necessary for hall activities, potentially offer hazards during careless and unacceptable behaviour. Children are not allowed in the kitchen.

15. If a stage is erected care must be taken at all times with the front of stage due to its inevitable shear drop to the floor of the main hall. Similarly care is needed on the stairways.

16. The Hall has a furniture store room. Care must be taken moving furniture in and out of this room and all items must be stored such as to avoid accidents from over-stacking.

17. Users are responsible for the safe operation of all equipment they bring into the Hall. Electrical equipment must be used in a safe manner in accordance with the Electricity at Work Regulations 1989.

18. The Hall's electrical facilities are regularly inspected by authorised personnel and a certificate issued. Any user noting any questionable defect should report it immediately and where appropriate cease using the faulty appliance.

19. No electrical equipment is to be stored in the hall such that other user groups could mistake it for equipment provided as part of the hall booking.

20. Any users needing to trail cables across the floor should minimise this need and should take care not to create tripping hazards.

21. Certain rooms/cupboards are generally locked for authorised access only – as stated on the doors.

22. Drivers must take care at all times and they should note that the exit is directly onto a main road.

23. Parking space has been designated for disabled use.

24. Due to the Hall being in a residential area we request all users to respect our neighbours and to keep noise levels to a minimum.
